

**Remarks**

The enclosed Declaration of inventor Allen Jacobs under Rule 132 is hereby submitted for the purpose of supplying additional factual information for the Examiner's consideration regarding the patentability of the invention disclosed and claimed in this application.

As the Declaration and Exhibit A to the Declaration adequately demonstrate, Mr. Jacobs is a person of more than ordinary skill in the art of traffic control signal processing in general, and conflict monitoring in particular. Consequently, his technical analysis of the specifications currently in use for pedestrian timings, outputs, and conflict monitoring is entitled to careful consideration. This analysis is contained in Exhibit B to Mr. Jacobs' Declaration. The Examiner is invited in particular to peruse the explanations regarding the differences between the significance of a flashing don't walk signal and a solid don't walk signal; and the considerations underlying Mr. Jacobs' creation of flashing don't walk signal conflict monitoring.

If deemed useful in any further prosecution of this application, the Examiner is invited to contact the undersigned at 702-270-8853.

Respectfully Submitted,

  
Warren P. Kujawa
